

To FCC: Please do not make any changes to Indiana's Telephone Privacy Act. At one time I received at least 10 calls a day from solicitors and their computers. Although these calls are irritating that is not the biggest problem. I work nights and must sleep odd hours; these calls have interrupted my sleep many times. When the computers call they sometimes hang up before I reach the phone! These calls also interrupted what little family time I get. Since I have signed up for the privacy list I have only received 1 or 2 annoying calls of this type. If people I do business with are allowed to call me I never get them to stop! No matter how many times I tell them no, especially telephone companies.

PLEASE do not change the Privacy Act!! This is the first time I have had this much peace. I work full time and go to school I do not need anything else to take up my time unnecessarily.

Thank You,

Peggy L O'Neill
